

RAILROADS

"DOVE OF PEACE"

Union Pacific and Salina Northern Differences Settled.

Gates and Crossings Are in and Are Running Smoothly.

SANTA FE RESPONSIBILITY

President Ripley Says Road Will Take Ardmore Blame.

Huge Damage Claims to Be Settled by the Railroad.

The Union Pacific and the Salina Northern Railroad companies have fixed up their differences and are now dwelling in peace and harmony as all good railroad companies should.

Last June the Salina Northern wanted to put its track across the Union Pacific at Salina. The Union Pacific made a written contract allowing it to do so upon condition that it would construct gates, which would allow the Union Pacific to run its trains without stopping at the crossing. When the Salina Northern got ready to put in the crossing a dispute arose as to whether the crossing of the gates should be built first. The Union Pacific wanted the gates first. The other road wanted the crossing. The public utilities commission was called in to settle the dispute. It ordered in the crossing at once.

The Salina Northern then started to put it in and the Union Pacific ditched an engine at the point of crossing, which prevented further work. Then the Union Pacific obtained an injunction to prevent the construction of the crossing. After that was done a truce was declared and the two companies agreed to work together in the construction of the gates and crossing. The gates were finished first, then the crossing was put in.

At the time the locomotive was ditched the Union Pacific did not have a wrecker at Salina so the Salina Northern loaned its wrecker, which was used in getting the locomotive back on the track. Now the Union Pacific has loaned its wrecker to the Salina Northern to enable it to place its bridge across Mulberry creek in position. The Salina Northern has its gates and the Salina Northern has its crossing, and everybody is satisfied.

SANTA FE WILL PAY.

Ripley Tells Ardmore Mayor That Road Will Foot Bills.

Ardmore, Ok., Oct. 5.—All claims in cases of death, personal injury and property loss resulting from the gasoline explosion and dynamite disaster here last week will be assumed by the Santa Fe Railway company, adjustment to be made by cash as soon as the merits of the individual cases can be determined. This announcement was made today by Mayor Mullen following the receipt of a telegram from E. P. Ripley, president of the Santa Fe company.

The telegram says that the company is not inclined to wait for the judgment of the courts in fixing the liabilities for the explosion which took a life toll of forty-seven persons and damaged property to an estimated extent of a half million dollars.

Following out a suggestion in the telegram the mayor has appointed a committee of six business and professional men to act as a "compromise committee." This committee is to report all cases of death, injury and property loss to the railroad officials. George Henshaw, member of the state corporation commission, stated Monday that the Santa Fe company's offer to settle out of court all just claims will not cause the corporation commission to abandon its plan to investigate the explosion.

"The purpose of the investigation, so far as the commission is concerned, will be to determine whether additional regulations for the handling of gasoline will be necessary to safeguard the public against a repetition of the disaster."

City officials today expressed themselves as pleased with the action of the Santa Fe and believe that in most cases a compromise settlement will be agreed to.

RAILWAY NOTES.

The Santa Fe annual report, first published in the State Journal two weeks ago, was officially given out by the railway company last night.

John Warner, a Santa Fe engineer, was possibly fatally injured at Muscatine, Iowa, Monday. He put his head out of his cab window when approaching a bridge. His head was struck. Warner was taken to the Santa Fe hospital at Fort Madison.

MUNSELL GIVES VIEWS

Herington Banker Says Kansas Isn't in Favor of War Loan.

Herington, Kan., Oct. 5.—Kansas can take care of her money and her loans without resorting to warfare investments, according to F. E. Munsell, president of the First National bank of this city.

With their bank deposits at high water mark, the Kansas bankers will not look with approval on the war loan, in the opinion of Mr. Munsell. "Plenty of money for investment is available," he said today. "But we have learned through experience to be sure before we put with it. Outside of the moral side of the matter—and this is important in the opinion of many who object to financing a bloody warfare of destruction—it is not a business proposition that will appeal to the Kansas banker or capitalist."

"The weakest point in the proposal in my opinion is the elimination of security from the basis of the loan. Personally, I have no doubt that the debt will be paid. The majority of the people of any country is loyal to the government and in the case of nations like Russia, France and England repudiation of debts incurred to sustain the nation is unthinkable except in a world catastrophe that would demoralize credit everywhere. But there are in Europe some two billion dollars of American securities. One year ago we were frightened lest these be dumped upon us and to prevent it closed the stock exchanges. There is no assurance that the half billion dollar loan being negotiated

will be sufficient to finance the allies' contest. If it is used and more is needed we must either increase the loan or there is always the possibility of vast sums of our securities abroad being presented to us for payment. In that case we would be compelled to furnish not only the loan but the money to redeem our securities, making a heavy drain on our financial system which may need strengthening before that time. If our securities were pledged for the loan, we should be in a position to protect ourselves. A bank customer with \$5,000 in certificates of deposit who also wanted a loan of \$5,000 would be asked to put up his certificates as collateral unless the bank was willing to have \$10,000 of its funds at the customer's demand. If we had American securities back of the loan it would be a sound business proposition—though I do not believe it would even then meet with general approval as a moral proposition—and would make us safe. As it is the country bankers are not going to finance the loan. Kansas banks will have plenty of use for their money in the development of the state which is going on more rapidly than is realized and the savings of the people are staying at home where Kansas gets the benefit."

WAS SHOT BY ROBBERS.

Nathan Kantrowitz Was Killed in Store at Los Angeles.

Leavenworth, Kan., Oct. 5.—The first news concerning the circumstances under which Nathan Kantrowitz, former Leavenworth merchant, was killed in California Tuesday night, reached Leavenworth Monday. He was killed after two holdup men had robbed him of \$13, and the murder was committed while he had his hands raised above his head.

It was shortly before closing time that the two young men, unmasked, entered his grocery store in Florence, a suburb of Los Angeles. Mr. Kantrowitz was "covered" with two revolvers and told to throw up his hands. He backed to the rear of the store. He told them that he would offer no resistance, but when only \$13 was found, a bullet was fired into his body. He was hurried to a hospital where he lived but a short time.

Nathan Kantrowitz was known to many Topeka people, having been in business here for a number of years before going to Leavenworth.

WILL STAY BY THEIR PASTOR. Congregation of Larned Church Show Faith in Rev. Mr. Knox.

Larned, Kan., Oct. 5.—The Rev. Mr. Knox, pastor of the Presbyterian church of this city, is just now the center of a church discussion which is attracting some attention here and throughout the state. Charges have been preferred against him by the Presbytery and he is to stand trial in that body.

But the congregation of the church here has no intention of allowing their pastor to be humiliated in any such manner, and has sent a delegation to interview the members of the committee which is to investigate the charges. The church members declare they will withdraw from the church rather than have their pastor suffer the indignities of such a trial.

Nurses Meet in Kansas City. Kansas City, Kan., Oct. 5.—Three hundred members of the Kansas Nurses' association met here today to discuss public health and the nurses' part in it. The meeting will be in session two days.

NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save your hair! Double its beauty in just a few moments.

25-cent "Danderine" makes hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy. Just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store, toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Advertisement.

SANITATION DAY

Wilson County Holds Big Celebration at Fredonia.

Capper Speaks and Takes Part in Big Parade.

Fredonia, Kan., Oct. 5.—All Wilson county today paid homage to the gods of cleanliness and health in the observance of "sanitation day." The celebration, believed to be the first of its kind ever held in the county, is a direct result of the recent survey of sanitary conditions in the county made by officials of the United States public health service and the state board of health.

Several floats depicted modern sanitary methods of protecting foodstuffs and portrayed methods of preventing disease.

Governor Capper, local officers of the United States public health service, members of the state board of health, city and county officials, congressional representatives, several companies of the national guard and the mayors of Fredonia, Atwood, Buffalo and Neodesha also participated in the parade.

Following the survey, a sanitation contest between Atwood, Buffalo, Neodesha and Fredonia was begun and each of the four cities has conducted a cleanup campaign preparatory to the visit of the judges. Representatives of the contesting cities displayed much friendly rivalry here today.

Several speakers, including Governor Capper, pointed out that there is a close relation between sanitation and health and business and urged that by improving the health of a city its residents are increasing its wealth.

Dr. A. W. Freeman of the federal bureau, and Dr. J. J. Sippey of the state department, have been working in the county since early last spring, more than \$8,000 having been spent by the United States government to conduct the survey. Six thousand inspections were made and in less than a half dozen cases did farmers make objections to complying with recommendations. It is said that sanitary and health conditions in Wilson county have been improved one hundred per cent since the survey was begun.

HERINGTON IS A BUSY TOWN.

Three New Buildings Costing \$62,000 Among City's Improvements.

Herington, Kan., Oct. 5.—Two beautiful structures are approaching completion here, a \$12,000 Carnegie library and a \$15,000 Masonic temple. They are on adjoining lots on Main street and will be a fine addition to the city. Paving has commenced and more extensions are planned. A new high school building

has just been occupied for the first time. It cost \$35,000 and is one of the most complete in the state. This city is making rapid improvement in other directions and shows a steady growth in population.

MUCH MONEY IS TIED UP.

Atchison Woman Has \$20,000 in Securities Given by Peltzer.

Atchison, Kan., Oct. 5.—Mrs. Henry Hausner, 400 North Third street, whose husband is an invalid, and whose sole means of support is the income from her investments, has about \$20,000 in the late Theodore Peltzer securities. It is said this is Mrs. Hausner's principal investment. William Schaap is an endorser on three notes of \$5,000 each; the W. F. Dolan estate has large holdings and some Peltzer paper is owned by Miss Mary Speltz, who lives at the Byram hotel.

GOLD MEDALS FOR CROPS.

Hiawatha Man Has So Many Trophies He Uses Them for Paper Weights.

Hiawatha, Oct. 5.—Gold medals for prize crops are so numerous with S. G. Trent, of Hiawatha, who has just been designated at the Panama-Pacific exposition as champion corn grower for Kansas, that he used the prize medals as paper weights in his mill office. Trent has no formula of secret practice that enabled him to

raise the 117 bushels to the acre and win the prize. The corn was grown on his father's farm five miles south-west of town.

KANSAS TEAM IS CHOSEN.

Three Men Selected to Compete in Grain Judging Contest.

Manhattan, Kan., Oct. 5.—H. R. Sumner of Manhattan; J. J. Bales of Manhattan, and J. R. Quigley of St. Marys, have been chosen to represent the Kansas State Agricultural college in the students' grain judging contest at the International Soil Products exposition in conjunction with the International Dry Farming congress in Denver, October 6. J. R. Mason of Seneca, is the alternate.

Teams from Oklahoma, Nebraska, Colorado, Utah, Washington and Wyoming will compete. If the local team is successful, a silver cup, which has been twice won—1913 and 1914—will become the property of the college.

KANSAN KILLED BY TRAIN.

Rock Island Freight Struck Man at Fowler, Kansas.

Fowler, Kan., Oct. 5.—Oscar Erikson, 25 years old, son of Hans M. Erikson, retired farmer and Meade county pioneer, was run down by a Rock Island freight train the yards Saturday night, receiving injuries from which he died a few hours later. Erikson was a widower and left a son 3 years old.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Nujol

REG. U.S. PAT. OFF.

A PURE WHITE MINERAL OIL

Why Your Doctor Prescribes Nujol for Constipation

LAXATIVES can very easily do a great deal of harm.

Nujol can do no harm, because it is not absorbed into the system, but acts simply as a mechanical lubricant.

Laxatives give only a temporary relief, and by their after-effects aggravate the very condition they are meant to cure.

Nujol is odorless and tasteless, absolutely neutral, and is not digested or absorbed into the system. It acts merely as a mechanical lubricant.

Nujol is not a drug. Its use will not give quick, temporary relief. But Nujol is a genuine remedy in that it relieves constipation in the most natural way by lubricating the lining of the intestines, softening the intestinal contents, and thus promoting healthy and normal bowel activity.

Write for "The Rational Treatment of Constipation," an informative treatise on constipation. If you cannot get Nujol from your druggist, we will send a pint bottle prepaid to any point in the United States on receipt of 75c—money order or stamps.

Exclusive Topeka Selling Agents for
Acorn Stoves and Ranges
America's Best

The Dual Acorn Range
The Greatest of All Two-Fuel Ranges

(The most experienced body of stove builders in America, (the Acorn Board of Stove Designers), has after many months of experimental work; its elaborate tests and its practical try-outs perfected The Dual Acorn, a Two-Fuel Range which the public may buy with confidence.

IF COAL IS USED the new Dual Acorn is a complete 4-hole range of standard Acorn workmanship and guaranteed construction, operated entirely independent of the gas section. No plates or burners to be lifted out or moved about, and to become lost or mislaid. The Dual is a COAL range in every sense of the word, and yet it is a complete gas range, too.

IF GAS IS TO BE USED there are five burners on the gas cooking top, three of standard size, one giant and one simmering burner; and all of them are always ready for use all of the time. Even while the coal range is running at full heat, no danger is incurred in using the gas cooking burners.

TO BAKE WITH GAS the same oven is used as for coal—all you have to do, is to push down a lever until it stops and light the gas. Just as simple and safe as it can be.

With the possibility of weak gas pressure at various times during the cold weather, your kitchen should be equipped with one of these Dual Acorn Ranges.
